

Operating Markets

Smiths Advanced Metals

Rev: SAM/info_sheet/market_focus/feb-2022

Page: 1 of 1

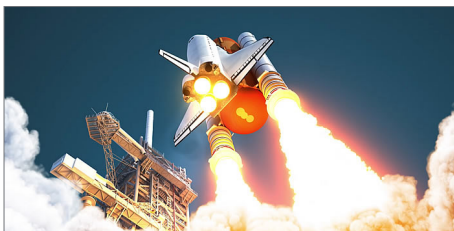

Smiths Advanced Metals supply metals and engineering plastics worldwide to a diverse range of industries.

Our wealth of experience in various high technology market sectors allows us to offer solutions in the most demanding global industries.

We supply metals to any company with a legitimate requirement, but we have developed strong relationships within specific core markets.

Specialist Markets

We have always prided ourselves as one of Europe's leading metal distributors. This diversity and breadth of stock enable us to fully support the needs of the general engineering market. However, **Smiths Advanced Metals** has also developed strong ties with particular industrial sectors where we have gained considerable working knowledge and expertise. Our market coverage includes:

AEROSPACE & SPACE EXPLORATION

CHEMICAL PROCESSING

DEFENCE

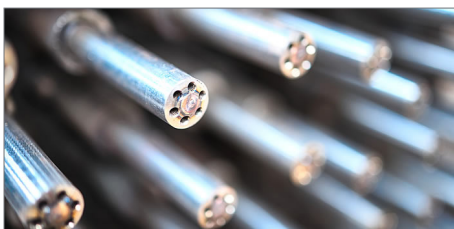

MEDICAL

MRO

NAVAL & MARINE

NUCLEAR POWER

OIL & GAS

POWER GENERATION
